

**VILLAGE OF WATERLOO
RESOLUTION NO. 05-23-17-05**

WHEREAS, the Board of Trustees of the Village of Waterloo feel it is in the best interest of the Village of Waterloo to build a new town hall building; and

WHEREAS, on April 11, 2017, the Village Board of Trustees approved a contract for architectural services; and

WHEREAS, the architect has requested a survey be performed for them to complete their work.

NOW THEREFORE, BE IT RESOLVED BY THE BOARD OF TRUSTEES OF THE VILLAGE OF WATERLOO, NEBRASKA, AS FOLLOWS:

THAT, the bid submitted by TD2 in the amount of \$4,800.⁰⁰ attached hereto as Exhibit "A", is hereby adopted.

PASSED AND APPROVED this 23 day of May, 2017.

RE: **Proposal for Topographic Survey**
509 Front Street
Lots 4 & 5, Block 17, Waterloo
Douglas County, NE

Dear Mr. How:

Thompson, Dreessen & Dornier, Inc. (TD2) appreciates the opportunity to submit this proposal for the preparation of a Topographic Survey of the property located at 509 Front Street on Lots 4 & 5, Block 17, Waterloo, in Douglas County, NE.

Scope of Work - Topographic Survey

We will prepare a topographic survey of the property that will show the following:

- a) We will identify the location of the above ground visible improvements to the property such as buildings, sidewalks and parking areas, retaining walls and other similar items. We will measure spot elevations at appropriate locations to define the site topography and the drawing will show contours at one-foot intervals referenced to North American Vertical Datum of 1988.
- b) We will contact the Nebraska One Call System to locate underground utilities. The utilities located as a result of this request will be shown on the survey and the utility companies responding to the request will be noted. The Nebraska One Call System will not locate privately owned utilities.
- c) We will show the location, cover elevation and invert elevation of sanitary and storm sewers on or immediately adjacent to the surveyed property where evidence of the sewers can be seen on the surface of the ground. Existing records will be used to determine pipe sizes and location when there is no evidence of the sewers on the surface.
- d) We will identify trees as being either deciduous or coniferous and we will note the diameter of the trunk measured two feet above ground.
- e) Easements provided to us by the owner will be shown on the survey. If easements are not available we can assist with obtaining an easement search upon request.

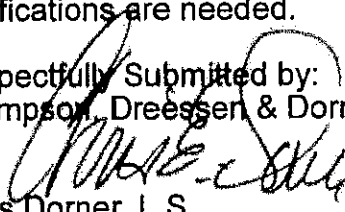

cd proposal-17126

Fee Schedule

TD2's fee for the preparation the Survey is \$1,800.00.

Again we appreciate the opportunity to submit our proposal. If it is acceptable, please have a copy signed on behalf of the entity for which we would be working. Please contact me if clarifications are needed.

Respectfully Submitted by:
Thompson, Dreessen & Dorner, Inc.

Chris Dorner, L.S.
