Really folds. Such a Time Saver.

Reviewed in the United States us on December 31, 2022

Main impression: Wow, do we love this machine- once set up.

Pros: Works wonderfully. Time Saver. Business must.

Cons: A little finicky to set up. (But once set up, you never touch again.) The 'wack, wack' is a little loud.

Suggestions: Ensure that the paper you are folding is cool to the touch (not hot off the laser printer). Ensure that the paper is fanned and DO USE the instructions suggestion of C bending the paper before putting in the sheet feed tray. Do not use the high speed setting. The 'slow' is very fast.

Yes, you will get some hard wacks and the fold is slightly bent over on a few pages. Simply bend the edge back. Our hard, 'hammer wack' rate is about 1:250. Pages are still usable for customers. Keeping the output area free of stack-up really works for us. We are now 4,000+ pages in. HUGE TIME SAVER. I really agonized about purchasing this unit for my small
