TOTAL

\$8,010.00

Quote from Fist Attack includes 5 complete wheels and tires that are mounted and balanced. These tires will help with off-road and wet traction. The lift kit will be installed prior to the install of the wheels and tires to get proper front end alignment.

This quote includes 40" continental tires that are rated at 6800LBS PER tire. They are common used tires for this application.

If we wanted a smaller tire, we could go to a Toyo 37/13.5R20 that is rated at 3900LBS PER tire. These are \$2,405 for a set of 5.
